## News Briefs

### Police Defuse Suicide Situation

At approximately 2:30 a.m. early Wednesday morning Nov. 22 the Grayling City Police was called to a suspicious situation in the 200 block area of Lawndale St. by residents. Upon arrival the City police found a 28-year-old Grayling man brandishing a loaded 12 gauge shotgun. The man was contemplating suicide, but was eventually persuaded by patrolman Dennis Long of the City Police to surrender the weapon without further incident. The City Police was assisted at the scene by deputies from the Crawford County Sheriff's Department.

Charges are not being sought against the man at this time and the police are not releasing the man's name.

### Doctors Upgrade Infant's Chances

James Owens, infant son of Ronald and Laura Owens, remains in critical condition at Butterworth Hospital in Grand Rapids.

According to the baby's mother, doctors, who gave James less than a 50-50 chance for survival when he was admitted on November 10th, now believe he will survive his illness. They list the baby in critical but stable condition and anticipate the baby will be hospitalized for up to three months before he can return home.

Ronald and Laura continue to stay in Grand Rapids to be near their son and return to Grayling for short visits with their four other children at home, who are all under four years of age.

James stopped breathing in Glen's Market on November 9 and was given infant CPR and mouth-to-mouth resuscitation first by his mother and then by Deputy Art Clough while City Patrolman Karl DeVries rushed them to Grayling's Mercy Hospital.

James and his twin brother, Timothy, were born on October 11 in Grayling.

### Business Ombudsman Quest Speaker Here

The Grayling Regional Chamber of Commerce will be holding a "Lunch & Issues" program on Thursday, November 30, 12 noon, at the Copper Kettle Restaurant, Grayling. The special guest speaker for the luncheon program will be Governor appointed Michigan Business Ombudsman, Mr. Richard Allen. Richard has served four years in the Michigan House of Representatives and eight years in the Senate.

Currently, Mr. Allen and his staff of the Michigan Business Ombudsman Office receive more than 2500 inquiries a month and have been featured in Michigan Business, U.S. News and World Report, and other state and national publications as playing a unique role in Michigan's Economic resurgence.

The topic of the "Lunch & Issues" program will center on the explanation of the Michigan Ombudsman initiative and how it is positively affecting the business climate throughout Michigan.

The fee for the luncheon program is \$6 for Chamber Members and \$7.50 for non-chamber members. You are asked to pay at the door. Reservations are needed, and can be made by calling the Chamber office at #348-2921, by 12:00 p.m. on Wednesday, November 29.

### City Requests Cooperation With Removing Snow

In order for city snow plows to be able to do the most efficient job possible all city residents are asked to refrain from parking on the street whenever possible. Note: Parking between 3 - 6 a.m. is illegal and may result in tickets or removal of the vehicle if it interferes with plowing. Residents are also reminded that plowing snow from drive-ways or other areas into or across any public street or road is illegal, dangerous and must not be done.

In the downtown area where there is perpendicular parking on Peninsular Street and Michigan Avenue, store owners are asked not to scrape their sidewalk snow directly into the gutter after city plows have completed plowing the street. City crews are usually finished in the downtown area by 5 a.m. Sidewalk snow should be kept in piles using the corner parking spaces as much as possible.

## KCC To Try Again With 1½ Mills Request

Kirtland Community College will once again be asking voters to approve a 1.5 mill increase for operational purposes at a special election on Tuesday, January 23.

College president Raymond Homer said the Board of Trustees decided on November 9th to act on recommendations from its advisory committee, administration and teaching staff and election volunteers to put the millage proposal before the people as soon as possible.

"Kirtland Community College is the only college in the State of Michigan trying to function on one mill," said Homer. "We have a first rate college and it is not our intention to dismantle our programs because of a lack of funding." Instead, Homer said they are going to continue to educate the voters regarding the plight of the college's financial problems.

"This year the board has approved a deficient

budget," he said, "which means we will have to use college assets to make up the difference. We can do this for about 24 to 30 months," he said, "and then the college is going to face its moment of truth."

Kirtland's 1.5 mill request for five years went down to defeat by 685 votes on October 9 (2,852 no to 2,167 yes) even though it passed in Crawford County, 424 yes to 364 no. The millage passed in only four of the college's 18 precincts.

"Some precincts were close," said Homer. "In others we were murdered."

The new millage request will be for an indefinite time period instead of five years. Homer explained that the indefinite request will eliminate the need to continually ask for millage renewals. It will also save the college the money it has to spend to finance its special elections.

"This district is special," said Homer, "because we are so spread out, covering 2,400

square miles, bigger than the state of Rhode Island." He pointed out that Kirtland's location is also unique because it does not have a visible presence as it would if it sat on a street corner within a community. The college is centrally located in the four county area it serves, and Homer said it is easy for voters to think that what happens at the college does not concern them.

There are approximately 30,000 registered voters in the 18 precincts that vote on Kirtland's millage issues, and 5,049 voters cast their ballots on October 9th.

The October defeat, in Homer's opinion, does not reflect any anger at the college, but rather an anti-taxes sentiment from a dedicated and very organized segment of the voter population.

"Many our residents are on fixed incomes," he said, "and even though the additional taxes we are requesting probably would not affect their tax bill, they are voting not just to make sure it doesn't."

Homer said surveys indicate there are enough 'yes' votes in the 18 precincts to pass the millage, but they did not show up at the polls in October.

"We are not going to be able to persuade those voting no to change their minds," he said, "so our job is to generate 3,000 yes votes."

"There is absolutely no doubt that this college is under funded," said Homer. "I'm confident that all fair minded voters, after they look at the financial situation, will support the 1.5 mill ballot."

## \$175,000 Grant to Assist Homeowners

Crawford County residents with low incomes will soon be able to apply to the Crawford County Housing Commission for loans to help pay for needed home repairs.

Jeannine Eggert, Director of the Housing Commission, received notification last week from the Michigan Department of Commerce that Crawford County had been approved for a \$175,000 Michigan Community Development Block Grant (CDBG) from the Michigan State Housing Development Authority.

Funding for the two year grant begins January 1, 1990, and is earmarked for housing rehabilitation for Crawford County's low and very low income. Eggert explained that eligibility is figured by both gross income and family size. Applicants must be residents of Crawford County and must either own or be purchasing their homes.

Interest on these loans vary from 0-3 percent, depending on eligibility. Some loans are deferred loans and repayment of these loans are not due until the property is sold.

According to Eggert, 213 single family households in the county have benefited from previous CDBG funds, and she anticipates the new grant will assist at least 30 additional families over the next two years.

The Crawford County Housing Commission received their first CDBG funds in 1976.

In addition to the CDBG funds, the Crawford County Housing Commission has other housing rehabilitation loans available and residents finding it difficult financially to make essential repairs to their homes should stop by the commission office located in the County Courthouse and find out if they qualify for these loans.

## Chamber To Sponsor 1990 Winter Carnival

The Grayling Regional Chamber of Commerce has announced that because of time restraints and the fact that there has been no group to come forward and accept the challenge of the 1990 Winter Sports Carnival, they will take charge of the event this year. Several groups were contacted to assume sponsorship of the Winter Carnival Festival, however, none were able to meet the Chamber request to achieve a legal incorporation for the event.

"Because we have been waiting for groups to file incorporation papers we are behind the eight ball," said Richard Albee, Chamber President. To make this year's Winter Carnival a success we are going to have to call on the entire community to help out."

Earlier in the year the Chamber sent a questionnaire to its members. The results indicated the chamber should be changing its objectives away from being the organizer for such community events as the Winter Carnival and should be taking a greater focus on enhancing the communities business and industrial status.

"Staffing limitations prevent the Chamber from being everything to everyone. We simply have to be more focused to achieve the Chamber's goals," explains Albee.

A tentative schedule of events has been set for the 1990 Winter Sports Carnival. Any civic group or individuals interested in helping carry on the tradition of the Winter Sports Carnival should call the Chamber office at #348-2921.

## More 'Snow Days' Will Mean Extra School Days in June

The calendar says winter won't be here for another three weeks but the Crawford AuSable School District has already used up half of its allotted days off because of ice or snow.

The District used one of its two allotted snow days on Friday, Nov. 16, because of drifting snow and slick roads. The State of Michigan requires that all snow days beyond the first two be made up. If a district doesn't make up its snow days, the state imposes a fine.

Last year, Crawford AuSable did not make up snow days because the district was out of the state formula and the fine assessed by the state was less than the cost of scheduling another day of school and paying for transporting the students over normal bus routes.

This year, the district is considered in-formula and the fine for not making up snow days has increased to about \$4,500 a day.

Makeup days, if necessary, will be scheduled for the week following the scheduled end of school in June; June 11 through 15. Exam schedules and non-graduation oriented activities will be moved so that they occur on the last days of school. Graduation activities including Baccalaureate, Class Night and Commencement will remain as scheduled in the school calendar.

District procedures for calling snow days will remain as in the past. The decision to call school is generally made between 6:00 and 8:30 a.m. and all local radio stations and the three Northern Michigan television stations are notified. Two hour delays will be called only if it is a cer-

tainty that buses will be able to operate following the delay. The decision to operate or close school will not be delayed. In some cases, portions of some bus routes may not be run due to weather conditions. In those cases, parents will be notified by phone.

### DISTRICT BUDGET

In other school news, the district will be receiving fewer state dollars than was previously anticipated. Officials from the Michigan Department of Education had incorrectly informed district officials with regard to state membership aid and the industrial facilities tax (taxes received from properties having tax abatements).

District officials were told in the early summer that the district would receive all industrial facilities taxes and also receive full state membership aid. They were informed this fall that state membership aid payments are deducted from industrial facilities tax payments and that the district does not receive both in their entirety. The end result is that the district will receive about \$240,000 fewer dollars than were anticipated due to the misinformation received from the Michigan Department of Education.

Due to the reduction in funds, the district will not be hiring an elementary counselor this year and will be reassessing some other planned purchases. With the reduction in funds, the district budget is still balanced but the district will not be able to add to their fund equity as had previously been planned.

# River House Receives \$14,500

A \$14,500 grant from the Emily George Fund for Human Needs was presented to River House Shelter recently to fund the development of a transitional housing and job skills program, announced Ferne Farber, River House Director.

"The funds will be used by the shelter to develop programs addressing the needs for safe, affordable transitional housing and job skills development for women who are clients of the shelter," Farber said. "River House will work with service providers in each of the four counties to establish the program."

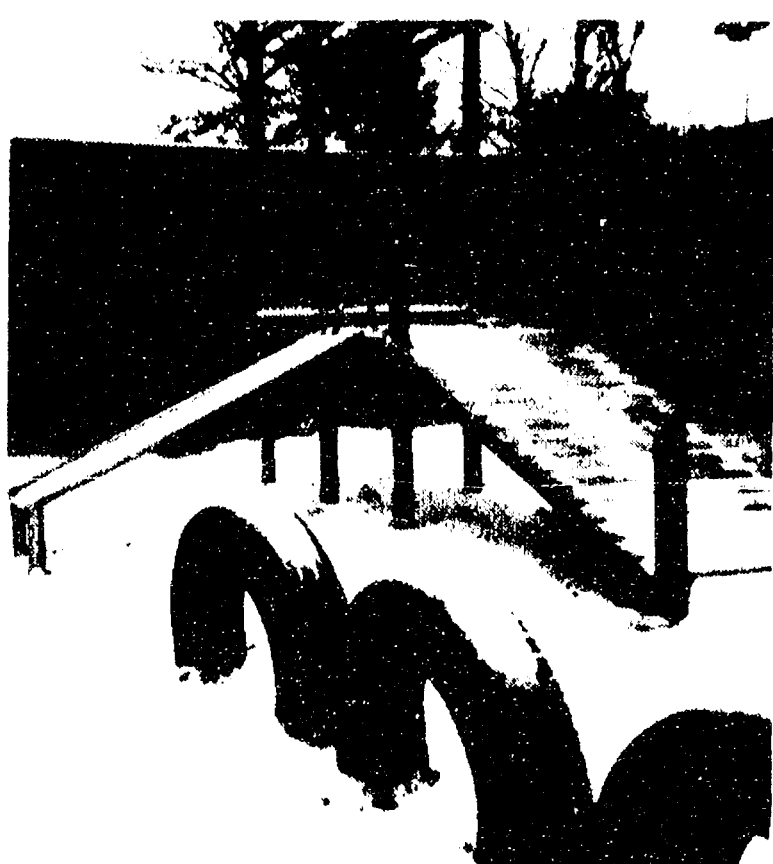

The programs will enable victims of domestic violence to

have access to a supportive skills development program, which can assist in breaking the cycle of low self esteem, unemployment and violence. They will also ensure the availability of safe, affordable homes for women and children in the rural area.

"This dual impact of self-development and safe transitional housing enables the women to break the cycle of violence in their lives, and the lives of their children," said Farber.

When clients of the shelter make a choice for a violence-free life, they currently encounter many barriers due to the lack of affordable housing in the

area and the lack of marketable job skills. Many women return to the homes where the violence occurred or stay in shelter beyond 30 days due to these obstacles.

## Christmas Cantata Dedicated to Gorten

This year the annual Michelson Christmas Cantata presented by the Senior Choir of Michelson Memorial United Methodist Church in Grayling will be held on Sunday, December 17th. There will be two performances: One for the congregational worship service at 10:00 a.m. and one for the general public at 3:00 p.m.

The cantata this year is "Make His Praise Glorious." The stylistic variety of the music ranges from a lush a cappella rendition of "Thou Didst Leave Thy Throne" to the free-flowing praise of a medley of spirituals. Also incorporated are inspirational songs for soloists and ensembles with choir as well as several traditional Christmas carols.

The central portion of the cantata carried forth through music and narration focuses on several main characters within the biblical account of Christ's birth. A small dramatic interlude set in the temple in Jerusalem finds Simeon and Anna sharing heartfelt monologues followed by a powerful ballad set as a duet.

All who reserve the 17th of December for this event will certainly find a joyous uplift to their Christmas season. The 1989 Christmas Cantata will be presented for the glory of God and dedicated to the memory of a dear friend, Paul Gorten, who had, until his recent death, been an integral part of the Michelson Choir Family.

## Children's Program Developed At River House Shelter

River House Shelter has provided services for 100 adults and 140 children per year since the domestic violence program began in October, 1986, with a twenty-four hour crisis line. When the safe home opened its doors in March, 1987, the only children's service available was babysitting when the parents had to keep appointments outside the shelter home. Unless their specific problems or needs were addressed by their mothers, the children were spending most of their time in the shelter playing or watching television. The staff and volunteers soon realized that special programming for children was needed.

residents as well as domestic violence victims who do not need safe housing but are in need of River House's services).

The program developed by the volunteers provided structured play activities as well as emotional support for the youngest victims of domestic violence. However, it soon became apparent that the children's individual needs could not be fully met merely by attending a weekly group meeting.

In August, 1988, River House hired a Children's Advocate to further develop the children's program by working closely with each family to assess their individual needs.

In order to develop a children's program, a team of volunteers researched various programs available for children at other area shelters, and in October, 1987, the shelter began to hold weekly children's support group meetings in conjunction with the adult victim support group meetings. (Support group meetings are available to shelter

and Halloween, a bicycle safety clinic, and a tour of a police post.

The rapid growth of the children's program was the source of a new challenge for the shelter staff; when in shelter, the children were confined indoors for safety reasons and, due to limited space, their play activities were further restricted to a small playroom. The children needed a private outdoor play area but due to River House's limited budget, funds were not available. The shelter began to search for outside funding sources in the four-county area it serves (Crawford, Oscoda, Ogemaw, and Roscommon counties).

This year the dream of having a playground became reality when River House received a \$3,000 grant from the O'Leary Foundation. These funds, combined with contributions from local individuals, businesses, and service clubs, enabled the shelter to have a privacy fence and an outdoor playground constructed, and to purchase a variety of educational and play

equipment designed for both indoor and outdoor use.

As a result, the amount of space available for children's activities has doubled, the children have a choice of indoor or outdoor activities, and with a variety of educational and play equipment available, age-appropriate activities can be planned. (The ages of children who come to River House range from newborn to high school students).

Numerous volunteers assisted with the development of the children's program, and the following individuals, businesses, and groups gave assistance in building the outdoor play area: AJD Forest Products, Inc., CSI Clio Systems, Inc., DuBois Lumber, Grayling Rotary, Grayling Youth Boosters, Houghton Lake Kiwanis, Junior AmVets, Maxi-Muffler (Grayling), and Upper Lakes Tire (Grayling).

Country Construction of Roscommon built the privacy fence and Dan Baker of Grayling built the outdoor playground equipment.

## Northern Views

By Jon Thompson  
Avalanche Editor

Hey lazy people in Crawford County, this column's for you. Next time someone asks you to shovel, snow-blow, or plow snow after a November snowstorm, try this excuse on them.

In the last ten years, we've had November snowstorms during eight of those years. (During the other two years, we didn't have any significant November snowfall.) In seven of those years, the snow was gone in November or early December. In only one year did the November snow not melt completely away, but it came close. In 1986, a November 12th snowstorm dropped 7 inches on us and all but one inch had melted away by Dec. 1 when snow started accumulating.

What does all this mean? Nothing much, because our weather doesn't go by the numbers or the averages. If you can use those figures to get out of shoveling snow, snow-blowing it, or snow plowing, you can probably talk your way out of most work anyways.

If you wanted to take a chance, you could -- nine times out of ten -- save yourself some work by leaving November snow alone. Most people around here would rather not take the chance and they clear November snow the same as December snow. They know what happens that one time that the November snow doesn't melt.

The snow usually sticks around for good in December in Grayling. Averaging the last ten years, we usually have six inches of snow on the ground that stays for the winter by Dec. 18. In 1980 and 1985 we had at least six inches on the ground (that stayed) as early as Dec. 2nd. In 1982 we didn't have six inches on the ground until Jan. 7. and in 1979, it was even later. It wasn't until Jan. 15th that we had 6 inches of snow on the ground.

Most of the long-time natives didn't consider last winter very tough. But the snow piled up last year as high as any winter in the previous 10 years.

Heavy snowfall at the end of February and through March added up. The deepest accumulation on the ground came on March 20, 1989, with 33 inches.

Here are the deepest accumulations and the date they were reached for the last ten winters:

Winter	Date	Deepest Snow Accumulation
1988-89	March 20	33.0
1987-88	Feb. 18	19.5
1986-87	Jan. 30	17.0
1985-86	March 6	29.0
1984-85	Feb. 11	33.0
1983-84	Jan. 29	25.7
1982-83	Feb. 6	10.5
1981-82	Mar. 9	32.5
1980-81	Mar. 11	30.0
1979-80	Mar. 11	16.5

One thing is for sure, the weather and winters here are unpredictable. For example, in the winter of 1985-86 (using the winter season dates of Dec. 21 to March 20), there was a foot of snow or more on the ground 89 out of 90 days. During the winter of 1982-83, however, there wasn't a foot of snow on the ground any of the 90 days.

Days from Dec. 21 - March 20  
With more than a ft. of snow on ground in Crawford County

88-89	55/90
87-88	55/91 (leap year)
86-87	35/90
85-86	89/90
84-85	62/90
83-84	54/91 (leap year)
82-83	0/90
81-82	80/90
80-81	60/90
79-80	5/91 (leap year)

What's is going to be like this winter? After the Nov. 16th snowfall, some people figured the snow was here to stay until April (or June if we get one of the old-fashioned winters the natives keep talking about). The averages say this November snow should melt before winter officially starts Dec. 21.

The averages from the past 10 years also say the snow accumulation will get as deep as 24.6 inches on Feb. 22 and we'll have at least a foot of snow on the ground for 41 days from Dec. 21 to March 20.

Want my personal prediction for this winter? It will be cold and snowy with occasional sunlight. And the people who were talking their way out of work in November will still be talking their way out of work at the end of winter.

## ...about your Social Security

Many people who are age 65 and older may be unaware that they are eligible for supplemental security income (SSI).

In recent years, several non-profit groups have estimated that only half of the elderly poor who are eligible for SSI benefits are receiving them.

SSI payments can be made to men and women 65 or over, disabled, or blind who have little income and own few resources.

Current figures from the Social Security Administration show

that 7 percent of Social Security beneficiaries age 65 and older receive SSI payments and three-quarters of these SSI recipients are women. The Administration does not know why some SSI eligibles do not apply, nor why efforts to reach them have had only modest success.

The SSI program provides a base of financial support for the elderly, the blind, and the disabled population who have limited incomes and few resources. People who receive SSI in

Michigan are eligible for Medicaid.

For information about SSI, call toll-free 800-2345-SSA. The Traverse City Social Security office is located at 1111 E. Front Street. The office is open 9:00 - 4:30, Monday through Friday.

A representative is at the County Building in Grayling on the first and third Tuesday of each month, 10:30 - 2:00. There is no phone service at this location. Callers should use the toll-free number.

## Good Reason For White Lights

Dear Editor:  
Two weeks ago a question was asked in this column, why does Grayling ask that the town be lit up with white Christmas lights rather than multi-colored? What do the white lights mean? She said she prefers to see towns that have

multi-colored lights. I will agree, multi-colored lights are beautiful, but so are white ones. I can think of at least one good reason for lighting up white lights. On the first Christmas night, a star in the heavens guided the Wise Men to the Christ

Child. Stars give off white light, not multi-colored blinking lights. I don't know if this is the reason for lighting white lights at Christmas, but it is a reason, and I believe it is a good reason.

## Let's Talk About It

By Joe Murphy

First off I want to commend the Boy Scouts on the food drive they have had this week. I hope all that could be generous in their contributions for a worthy cause. I would hate to think anyone in our area is suffering from hunger but we all know it happens. If we see to it that the churches' food pantries are well stocked we can all sleep better. It is great to see the young people involved in community service. Congratulations to the Scouts for your willingness to work to meet the needs of those less fortunate in our area.

I look out the window and see the snow just keep coming down. I sure would hate to think that we might not see bare ground until April, it could happen, I hope and pray we will get some warm weather to get rid of the snow for a while yet. I would hate to think we would have to shovel snow for the next five months. Winter holds no attraction for me anymore, I used to kind of enjoy it but now it just seems like something I would be glad to do without.

I hope everyone had a great Thanksgiving Day with turkey and all the trimmings. Perhaps today folks have gotten away from the

whole purpose of the holiday. When your whole livelihood depended on the actions of so many variables such as weather, moisture, garden pests, and many others, when all went right you could only thank God for his blessings. Today we live farther from the dependence on conditions in our local area and a local drought does not mean starvation as it may have for the early settlers. But still I think we can all feel thankful for the many blessings that the Lord has bestowed upon us. I know I found time to kneel and thank God for his many blessings on that day of Thanksgiving.

Christmas will soon be coming with all its lights and glitter. Christmas is a wonderful time of year with all the friendly greetings and just plain goodwill for others shown at that time. Many folks are working to try to make Christmas a day to remember for all our people. Food boxes and gifts are given out with a free hand to those less fortunate in our area. If you are asked for a donation be as generous as you can and really get into the Christmas spirit. May I add my heartfelt hope, that all of you have a joyous Holiday Season.

## Almanac

By Richard Millman  
Avalanche President

When is a pay level high enough?

**WHEN JOHN DIBIAGGIO**, president of Michigan State University, received a 5 percent salary raise a few weeks ago, his annual pay went up to \$142,000 a year.

That's considerably above the minimum wage, but is it high enough for the head of prestigious institution of higher learning, such as MSU?

The \$142,000 is higher than a member of the United States Congress or Senate -- even at the most optimistic higher pay levels those public servants continue to consider. It's more than the governor of the state is paid.

But -- horror of horrors -- President DiBiaggio ranks ninth among pay for presidents of Big Ten Universities! Only miserly Wisconsin at \$108,396 pays its university president less.

Heavens! How can any loyal MSU student, academician or booster hold his/her head up high when hobnobbing with peers from the Big Ten?

**"THAT'S NOT SURPRISING** because that's where our salaries fall in general," Dr. DiBiaggio commented. He added: "I genuinely believe our Board of Trustees is doing all that it can."

According to a recent survey by The Chronicle of Higher Education, MSU faculty salaries for professors, associate professors and assistant professors rank eighth in the Big Ten, tied with faculty salaries at Purdue.

Highest faculty salaries are paid at another institution supported by Michigan taxpayers -- the University of Michigan.

One faculty member quoted recently by The Lansing State Journal cited "a grumble problem" because of faculty salaries at MSU. A faculty committee has proposed eight percent increases each year for the next three years.

**MSU'S FACULTY SALARY** ranking has "a very debilitating effect on morale," according to Gerard Adams, another MSU faculty member quoted by the Lansing newspaper.

"We don't do what we do for the

money. We love teaching ... learning. But we can't help but judge ourselves."

When you look at the entire Big Ten presidential salary picture, MSU is really not that bad off. Being "ninth in the Big Ten" is accurate, but a bit misleading.

For example, Northwestern University -- the smallest of the Big Ten schools and the only non-public university in the group -- leads the presidential pay scale at \$205,000. The president of Indiana University is second with \$178,476.

But the next three are closely grouped between \$150,000 and \$155,000 a year. That's Michigan, Iowa and Purdue.

The next four -- including MSU -- are also closely grouped. Illinois, Minnesota, Ohio State and MSU are all between \$142,000 and \$148,500. And Wisconsin, as noted earlier, is a distant last.

So, looking at it another way, MSU's president is only \$6,500 a year from ranking sixth, and only about \$13,000 a year from ranking third.

In this light, \$142,000 is not too bad for a president who's been on the job here for a few years.

And, if the faculty salary differentials are of similar magnitude, then there's not too much gripe there, either.

**LIFE IS A SERIES** of tradeoffs, especially in life style and pay levels -- at least for talented folks. There are benefits which attend being president of a major university which can't be measured in dollars and cents.

The same is true of faculty life. Prof. Adams, for example, pointed out in the State Journal article that "it doesn't pay" to work for a university. He said, "I've lost a fortune in my life becoming a professor."

Maybe so. As a newspaper person, sometimes I feel the same way. But teaching has been Mr. Adams' choice, and newspapers have been mine.

I know I would much rather be peddling papers than peddling hope or pursuing some other lucrative but less fulfilling career.

And most teachers feel the same way.

## Classical Guitarist Klickstein Performs for Weyerhaeuser Series

The Weyerhaeuser Performing Artist Series at Kirtland Community College will present classical guitarist Gerald Klickstein on Saturday, December 9, at 8 p.m. The performance will take place in the Gilbert I. Stewart Auditorium at Kirtland.

Having recently appeared on a PBS Special performing the Concerto in D, by Mario Castelnuovo-Tedesco, Gerald Klickstein is fast becoming one of America's top classical guitarists. His performances are heard throughout the United States both from the concert stage and on radio and television. He is a member of the prestigious Arts Midwest Performing Arts Touring Program for 89/90, the Michigan Touring Arts Program for 90-92, and one of the last guitarists to study with the great Andres Segovia. In March of 1987, Mr. Klickstein

was one of four guitarists chosen by Maestro Segovia to perform in the Andres Segovia Recognition Concert in New York's Hubbard Recital Hall. Also in 1987, he was awarded a Top Prize in America's most prestigious guitar competition, the Guitar Foundation of America International Competition. In the spring of 1989 he was invited to join the distinguished roster of Affiliate Artists.

An important guitar educator, Mr. Klickstein presents guitar workshops throughout the U.S. Topics include: guitar performance, repertoire and technique, early music performance practice and arranging for guitar. He is a member of the distinguished music faculty of the University of Texas at San Antonio and a former faculty member of Michigan State University.

Mr. Klickstein holds Bachelor and Master degrees in guitar performance from the University of Miami and San Francisco Conservatory of Music, where he graduated with honors. His performing career began long before, however, with regular performance since age ten. Today, Mr. Klickstein is known throughout the U.S. as a stunning guitar virtuoso and musician, and his reputation has begun to spread abroad. Britain's Guitar International Magazine observed: "There are many good guitarists coming up all over the world, but watch out for him in the future." Tickets for Gerald Klickstein are \$8 and \$5 for regular admission and \$4.50 and \$4 for students and senior citizens. To reserve tickets call Kirtland Community College at 276-5121 or 800-433-2517.

The Weyerhaeuser Performing Artist Series receives major funding from the Weyerhaeuser Company Foundation and is funded in part by the Kirtland Community College Foundation.

## Local Travel Series To Visit Australia Wonders on Nov. 30

On Thursday evening, Nov. 30, the Crawford AuSable Adult and Community Education Program will present its 3rd program of the travel and adventure film series at 7:30 p.m. in the Joseph Stripe Auditorium at the Grayling High School.

Australia is vast and friendly with natural wonders down every road. Travel with Canadian filmmaker Keith McCall to the big, beautiful cities as well as the fabulous "outback."

Sydney crowds the shores of one of the world's most beautiful harbors. See the Sydney Opera House, a magnificent performing arts complex.

Meet Hospitable "Sydneyers", among them Aborigines, Europeans, and recent Asian immigrants who mingle tradition and culture Australian fashion.

Go "four-wheeling" over the rough terrain of the Australian outback where spectacular scenery and wildlife are part of daily expectations. Fly with the outback mailman into remote stations isolated by huge distances. Ride a camel to dinner at an outback winery.

Visit Alice Springs, Ayres Rock, and enjoy

yourself at a most unusual regatta on a dry river bed - the Henley-on-Tod Regatta.

Explore Kakadu National Park and be amazed at the "living fossils" that fill Australian wildlife areas. In Darwin, visit a crocodile farm and attend a wild buffalo muster. On Adelaide's Kangaroo Island, walk among the kangaroos, sea lions, and other animals.

Australia has it all... scenery, wildlife, and the friendly welcoming Australian people who make this journey unforgettable.

# Lights of Love to Raise Money for Fetal Heart Monitor

Let your love light shine this Christmas season through the Christmas "Lights of Love," a fund raising endeavor sponsored by the Mercy Hospital Auxiliary.

Lights of Love is a thoughtful way for you to honor someone you love. A minimum contribution of \$5 in honor

of a loved one will illuminate one of the bulbs on the Christmas Lights of Love tree in front of Mercy Hospital/Grayling during the 1989 holiday season.

The Weyerhaeuser Company of Grayling donated a 24 foot white spruce tree for the Lights of Love project.

The K-Mart Corporation of Grayling has donated 500 colored lights for the project.

The Mercy Hospital Auxiliary will send an acknowledgement card, on your behalf, to the family of a person memorialized, or to those whom you may honor. In addition, the name of each honored individual will appear on a Tree of Honor, which will be displayed in the lobby of Mercy Hospital/Grayling throughout the holiday season.

Those honored, and those who contribute to the Lights of Love tree are invited to attend

the Tree Lighting Ceremony on Friday, December 15 at 5:30 p.m. in front of Mercy Hospital. At that time the Auxiliary hopes to light at least 500 bulbs in honor of our loved ones. Contributions made to the Lights of Love will be directed towards the purchase of a fetal heart monitor for the Obstetrics Unit at Mercy Hospital/Grayling.

For further information or to obtain a giving envelope, contact chairman Joyce Vogelsberg at 348-5008, or Donna Pflum, Volunteer Services Coordinator, at 348-5461, ext. 198.

**WEYERHAEUSER GIVES THE UNITED WAY**—Weyerhaeuser employee Tina McEvers, on behalf of all United Way captains, is shown presenting a check for \$3,600 from the Weyerhaeuser Company Foundation to D.J. Brown, the 1990 United Way Campaign chairman. In addition to the foundation's gift, Weyerhaeuser team members pledged \$7,456 bringing their total gift to \$11,056.

## Lovells

Our community was saddened by the death of Hugh Bitters who passed away at Mercy Hospital on November 24th. Hugh has been a part of our community for many years and will be missed by his many friends.

# Cocaine lies.

After nearly a decade of being America's glamour drug, researchers are starting to uncover the truth about cocaine.

It's emerging as a very dangerous substance. No one thinks the things described here will ever happen to them.

But you can never be certain. Whenever and however you use cocaine, you're playing Russian roulette.

### You can't get addicted to cocaine.

Cocaine was once thought to be non-addictive, because users don't have the severe physical withdrawal symptoms commonly associated with heroin—delirium, muscle-cramps, and convulsions. However, cocaine is intensely addicting psychologically.

In animal studies, monkeys with unlimited access to cocaine self-administer until they die. One monkey pressed a bar 12,800 times to obtain a single dose of cocaine. Rhesus monkeys won't smoke tobacco or marijuana, but 100% will smoke cocaine, preferring it to sex and to food—even when starving.

Like monkey, like man.

If you take cocaine, you run a 10% chance of addiction. The risk is higher the younger you are, and may be as high as 50% for those who smoke cocaine. (Some crack users say they felt addicted from the first time they smoked.)

When you're addicted, all you think about is getting and using cocaine. Family, friends, job, home, possessions, and health become unimportant.

Because cocaine is expensive, you end up doing what all addicts do. You steal, cheat, lie, deal, sell anything and everything, including yourself. All the while you risk imprisonment. Because, never forget, cocaine is illegal.

## 11 From GHS Selected for Honors Band

By Nancy Lemmen

Eleven Grayling High School band members were selected for the 1989-90 Michigan School Band and Orchestra Association's Honors Band.

The following students will perform at the Cheboygan Opera House on December 3 with the 60-member band:

Adam Anger, son of Rodger and Peggy Anger; Kevin Austin, son of Larry and Glenn Austin; Michelle Burcham, daughter of Debra Neldrick; Gretchen Dice, daughter of George and Janet Dice; and Anna Hagemeister, daughter of Jessie Hagemeister.

Also, Jason Medler, son of John and Susan Medler; Sarah Neal, daughter of Joan Neal; Chad Ormsbee, son of Dennis and Brenda Ormsbee; Jamie Petrie, son of Duane and Patricia Petrie; Yolanda Rosi, daughter of Tom and

Marilyn Rosi; and Kendra Wert, daughter of Dennis and Marilyn Palmer.

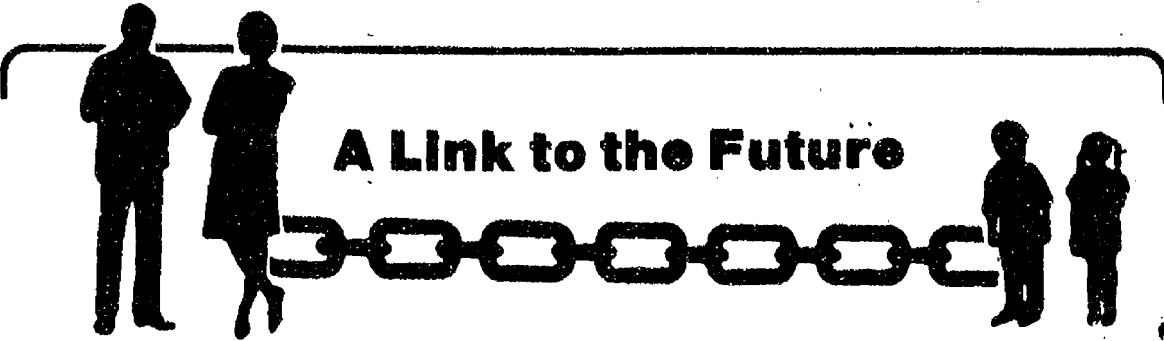

Twenty-six GHS band students auditioned for the prestigious honors band on November 6 at Charlevoix High School. Twenty high schools from the MSBOA's District II sent students to the

auditions, with Grayling earning just over one-sixth of the positions.

The first rehearsal was held at Manacelona High School on November 18, and the second one at Cheboygan on December 2. Students will remain there overnight, with room and board provided by the

schools they represent, says GHS Band Director Dennis Ormsbee.

Area residents are invited to attend the Honors Band Concert in Cheboygan's historic and beautifully renovated Opera House. For more information, call Director Ormsbee at 348-7641 during school hours.

Presented by the Grayling High School Counseling Department:

**Meet the Grads** - The Counseling Department and the National Honor Society will be hosting "Meet the Grads" on Friday, Dec. 22.

**Senior Scholarship Information** - Baker College is offering several scholarships. The American Legion offers several scholarships to sons, daughters and grandchildren of veterans. CMU is offering scholarships to students with a minimum of 3.5 G.P.A. You must apply by December 1st. Kirtland Community College is offering scholarship opportunities to students with a 3.0 G.P.A. Pick up applications in the Counseling Office. Students should see Mrs. Green for more information on these scholarships.

Seniors should be turning in their college applications to the counseling office as soon as possible.

**Juniors** - Mr. Klinger has finished his individual conferences with the Juniors. Parent or guardians wishing to have an update on their students information can call

the counseling office.

**Paving the Way** - Parents of college bound juniors are invited to a program called "Paving the Way". Mr. Klinger will give a presentation for parents on early planning for college. This program will be on Thursday, December 7, beginning at 6:30 p.m. College bound juniors will be bringing home more information before the meeting.

**Freshmen** - Mr. Klinger will be meeting with freshmen students and will be preparing an Educational Development Plan for each student. This plan will include test scores, interest surveys, career options and scheduling for the tenth, eleventh, and twelfth grades.

**College Visitations** - Ferris State University will be in the counseling office at 11:00 on Nov. 28. Western Michigan University will be in the counseling office at 9:00 on Nov. 29. Adrian College will be in the counseling office at 10:45 on Nov. 30.

Juniors and Seniors interested in the above schools can make appointments to visit with Admissions Officers.

#### MATH

Math is the best subject in school. Math is fun. We're doing addition in math, in thousands and hundreds. Usually we are

adding three numbers. We're doing subtracting, too, usually four or five digits. We are going to divide in about a month. We work in a book. We write it on paper. We write the date on the math paper. We are doing math folders.

Written by Danny Bale and Nathan Niederer, Mrs. Akers' fourth grade.

### P.T.O. Meets December 4

The Crawford-AuSable P.T.O. will meet Monday, December 4 at 7:00 p.m. in the Middle School Cafeteria. Guest speaker Mike Branch will discuss strategic planning for the C/A school district. Entertainment for the evening will be provided by the Elementary School Choir. All are cordially invited to attend.

The classroom with the most parents in attendance will win the ice cream party.

**The last thing you need now is a problem with your renter's insurance.**

Renting fits a mobile America's style. When you rent, you may have attractive surroundings, tended grounds and on-call maintenance. And you have the freedom to move as your heart or your job takes you—without all the hassles of selling a house. Although you have all these convenient luxuries, you also have many of the same liability and personal property risks as a homeowner. That's why Auto-Owners Apartment Dwellers Insurance protects the contents of your apartment from loss due to theft, vandalism, fire, water, wind and other losses. It protects you and your family if someone else is injured in an apartment accident.

And if something should happen to your apartment, Auto-Owners pays for your living quarters until you can return to your own apartment. Just ask your "no problem" Auto-Owners agent about Apartment Dwellers Insurance. It's a good way to insure peace-of-mind.

## Dunkley Joins Frederic Elementary School Staff

By Nancy Lemmen  
Julie Dunkley has been hired by the Crawford AuSable School District to teach 4th grade at Frederic Elementary School. She has been a substitute teacher in the district for two years and taught part-time in the CASD pre-school program last year. She completed her bachelor of science degree from Central Michigan University in 1982, with a major in psychology and a

minor in speech. She took additional courses to earn her elementary teaching certificate in May of 1988.

Julie, who moved to Grayling from Bay City, is married to Brian Dunkley. They have two children, Andrea, almost 5 and Kelly, 3.

She enjoys cross-country skiing and playing basketball and softball. She is currently an assistant coach for a junior pro basketball team.

Says Julie of her decision to live and work in Crawford County, "I've always loved the beauty of northern Michigan and my husband's family is from this area." She adds that she has found the CASD to have "many dedicated, caring professionals. It's an honor to be among them. The staff members at Frederic are great."

Olivet College sophomore, Carrie Trudgeon (Grayling HS), was named the "Comet of the Week" for her exceptional volleyball efforts during the week of Oct. 9 - Oct. 15.

Despite a long season for the lady Comet spikers, Trudgeon has quietly emerged as a leader to help brighten the future of Olivet College

volleyball.

Last week the ladies lost two league contests to Hope and Kalamazoo Colleges. Trudgeon played sensational defense, keeping the matches close. Her 85 percent serving efficiency and error free play created her role as leader, a role that will be emphasized in the years to come.

"Carrie is consistent and a positive force on the team," says Head Coach Audrey Randall. "Her attitude makes it a little easier making it through a season like we're having."

Trudgeon is the leading defensive digger on the team and maintains a 3.7 GPA in secondary education with a major in physical education and a minor in math.

The Comet of the Week Award is presented to one outstanding Olivet College athlete for his/her performance in the previous week's athletic contests.

Olivet College is a four-year liberal arts college located in south-central Michigan. The college awards the bachelor of arts, bachelor of music and bachelor of music education degrees.

#### Gum

by Danyell Galvani

Gum, a sticky, gooey, delightful substance, is not beneficial to masticulate in school for multifarious reasons. For one thing, it is carbohydrate-filled and inadmissible to your toothies. Since our dazzling school has carpeted walking surfaces, the rule is "no gum" because it is eminently problematic to get out of carpeted walking surfaces. You should not masticulate gum in physical education class for you might clumsily misplace your feet and choke and gag on the substance. In the hallway you could clumsily misplace your feet and gibber your gum into someone's hair. That

would be an awful idiom.

Now, I would like to confront the subject of masticulating the substance outside on the uncarpeted walking surfaces. It is incredibly doltish to postulate that your substance be gibbered when you are in prodigious groups of people. If I was to gibber the substance when it was postulated it would have alighted in someone's hair or on the uncarpeted walking surfaces where someone would step on it and traps it through the building openings and on to our pulchritudinous, carpeted walking surfaces and make a tremendous idiom.

Writing this essay gave me a brand new frame of reference on the rule "no gum." It also increased my lexicon. I thoroughly enjoyed writing this incredibly brilliant essay. I look forward to tendering another soon.

#### FRIENDS

I went to the Grayling Elementary School first. I went to school in Frederic last year. I had a nice teacher. It was just a different school. I came back to school here this year. I felt good coming back here. I liked it up there better than I do down here.

I had the friends that I had down here and I make new friends up there. But I wanted to come down here for fourth grade. So I could have all my old friends back. I missed them up there. And I wanted to have Mr. Hatfield for a fourth grade teacher because he is funny. If I would have gone up there I would have wanted the teacher I had before.

Written by Rob Lawe, Mr. Hatfield's fourth grade.

Mr. Hatfield is nice. He's a funny teacher. He likes to play games. He's nice with kids. A lot of kids like him because he plays games. He likes to play Simon Says. We get to stand on our chairs. He likes to tease kids sometimes. We play games on the computer, too. We play lots of spelling games and there is one that is like a memory game.

I like to do work. I like to do math, english, science, and social studies. I like it when we talked about the flag in science. We went outside and learned how to put the flag up. We talked about pulleys on the flag. I like math because I like to do adding, subtracting and multiplication. I like english because you get to write sentences and stuff.

Written by Danae Outman, Mr. Hatfield's fourth grade.

## Poet's Corner

### "Welcome"

(Written as a thank you to voters for passing millage to build new C.O.O.R. classrooms)

All new windows, all new doors  
All new carpet, on all new floors!  
New walls, new roof, new ceilings too,  
A brand new school for me and you.

Lots of room and lots of fun —  
Same sweet students on the run.  
Rooms filled with laughter, filled with learning  
In a brand new building we've been yearning.

Teachers, students — all the same,  
C.O.O.R. Intermediate, still the name.  
Sure is great, and sure is neat,  
Up the hill on a brand new street.

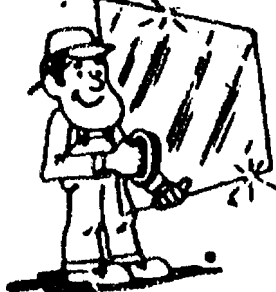

To the little red barn we say good-bye —  
With barely a tear in the corner of our eye.  
We've had good times, we've learned a lot  
Now a brand new school is what we've got.

We are deserving, we are a great bunch  
We've a brand new place to eat our lunch.  
We've waited, we've prayed, we've asked,  
we've pleaded,  
And thanks to everyone, we have just what  
we needed!!

**Veteran's Day  
 Tops Busy Month**

Carl W. Borchert's V.F.W. #8736 and Auxiliary accomplished a lot in November. The VFW Auxiliary and the American Legion Auxiliary ladies hosted a bazaar. They also participated in the Veteran's Day program November 11 at the Copper Kettle. Many people attended the flag ceremony honoring deceased veterans. Any one wishing to fly a flag of a deceased veteran during the ceremony next year may call Jack Alef or Lou Ann Crosby. Col. Hogan contributed the public use of his property for the ceremony.

The V.F.W. hunter's dinner was held at the K of C hall November 18. The lucky winners of the raffle were Pauline Lozon, a boy's bike, Sara Pence, a girl's bike, Dora Feldhouser, \$50 certificate from K-Mart, and Ryan Hively, \$50 certificate from Glens Market.

New V.F.W. Auxiliary members are Edith Vickery and Jo Scott. The hospital

committee served cake and ice cream at the Meadows Rest Home November 10 giving small flags to the veterans who reside there. Lillian Kling helped organize that day.

The veterans Christmas gifts and the presents for the National Home will be delivered the first week of December. The Post and Auxiliary party will be held the second Thursday of December no business meeting that night. Remember to bring a dish to pass and a \$5 gift exchange ladies for ladies and men for men.

**Apple Pie  
 Fundraiser  
 Earns \$447**

A new fund raiser for Mercy Manor was a success with 157 delicious apple pies being sold. In all \$447 was raised for Mercy Manor. Many people donated apples and the Hospital Auxiliary and families of residents assisted with making pies.

**Grandma's Rocking Chair**

It's just a plain old wooden rocker.  
 Looks kind of funny sitting there.  
 But I never will remove it,  
 Because it's Grandma's old rocking chair.

When it was new it rocked her baby,  
 Who grew up to be my Dad.  
 I can picture him rocking in it,  
 When he was just a little lad.

Maybe, it was his covered wagon  
 Surrounded by Indians on the plain.  
 Perhaps, it was a pirate ship  
 Sailing on the Spanish Main.

It was anything his young mind dreamed.  
 Took him wherever his dreams might be.  
 When I came along to use it,  
 It was my trusty Model "T".

Sometimes it was the airplane  
 That shot the Red Baron down.  
 At other times a roaring tank  
 Running the Kaiser to the ground.

When my son's time came to use it,  
 It was a bomber flying high.  
 He was flying over the enemy  
 Dropping destruction from the sky.

But it quickly changed back to a pirate ship.  
 If that was on his mind,  
 Or carried him west across the prairie,  
 On the old trails left behind.

His son now has the seat of honor,  
 To make all of his dreams work.  
 It becomes the starship "Enterprise"  
 And he is "Captain Kirk".

But Grandma always had her time there,  
 At the closing of the day,  
 To nod and dream her special dreams,  
 Of times so far away.

Then one day as she was rocking,  
 Grandma was no longer there.  
 She had rocked her way to the promised land,  
 In that same old rocking chair.

**4-H Bird  
 Club Starts**

There is still room to sign up for the 4-H Bird Club. Youth 4th grade and up can learn how to take care and train your pet bird or you could just learn more about caged birds. The first meeting will be held Saturday, December 2, at the home of leader Shirley Scott. Scott also owns and operates our local aviary Northwood Flights.

To join this club or for more information, call the Cooperative Extension Service at 348-2841 ext. 284 or Shirley Scott at 348-8155.

**Scouts Collect  
 Food To Help  
 Area Needy**

Bad weather didn't stop the scouts. They were out in full swing collecting bags of food for the needy. According to scoutmaster, Loren Goodale III, and assistant Cub Master Lynn Johnson, the giving this year was not as good as last year. They did get quite a truck load that was split between church pantries, St. Mary's and Michelson Memorial. If you want to donate and got missed please drop your bag at Goodales Bakery. Thanks to you, scouting works in Crawford County.

# FOOTBALL Contest

## 1st Place Wins \$50 Each Week!

Last week's winner Doug Latuszek was the only one to make it through the weekend with 16 correct. There were eleven runner ups with 15 correct: Joyce Renon, Irene Wyman, Mike McNamara, Mick McNamara, Edna MacLeod, John MacLeod, Steve Stancil, Joan Neal, Philip Morell, John Meredith, and Ginger Rice. Seventeen people guessed 14 correct with a total of 108 people playing last week's game.

There are 19 people in the overall contest within striking distance of the leader Mike McNamara, who has 176. Close behind are Heidi Mead and Arthur Thayer with 171, Mick McNamara 170, Gary Derenzy 168, and Ace Worden 165. Mike has held the lead since the third week.

Surprise! Surprise! Surprise! If this week's entry blank looks a little different, remember this is week #13. You will have to search the newspaper to find the 20 games to play this coming week's game. We hope you have as much fun finding as we did hiding them. One other thing, our complaint department will be closed this week for obvious reasons.

Scores November 25 - 26

Of all the men who've ever played football, which ones have played in the most Super Bowls?...Seven men share this record, each having played in five Super Bowls: Larry Cole, Marv Fleming, Cliff Harris, D.D. Lewis, Preston Pearson, Charlie Waters and Rayfield Wright.

The first football team in America to use a nickname was Princeton, which adopted the name "Tigers" in 1887 because of the orange and black stripes on their jerseys.

When was the last time a coach won the national championship in major college football in his very first year as a head coach?...It hasn't happened since 1948...That year, Bennie Oosterbaan led Michigan to an undefeated season and the national championship as a first-year head coach...Oddly enough, Oosterbaan coached for 10 years after that but never won another national title.

## The Bible Speaks

The Gospel of John Part #106

### The Righteous or the Robber?

Following Pilate's verdict at the Roman trial of Jesus Christ, Pilate came up with a brilliant political idea, he would give the Jews an opportunity to free Jesus Christ as a common criminal. "But ye have a custom, that I should release unto you one at the passover: will ye therefore that I release unto you the King of the Jews?" (John 18:39). Even though Pilate has said, "...I find in him no fault at all," nevertheless, he accepted the testimony of Jesus Christ that he was a spiritual or religious King of the Jews.

"Then cried they all again, saying, Not this man, but Barabbas. Now Barabbas was a robber." (John 18:40).

Barabbas means son of the Father, and some believe Barabbas was the son of a Rabbi. He was "a notable prisoner" according to Matthew 27:16. He was an insurrectionist and murderer according to Mark 15:7. Barabbas was a popular leader trying to overthrow the sovereign rule of Rome over Israel. Peter reminded them of this terrible choice in Acts 3:14: But ye denied the Holy One and the Just, and desired a murderer to be granted unto you." When Pilate washed his hands and said, "I am innocent of the blood of this just person: see ye to it."

(Matthew 27:24). "Then answered all the people, and said, His blood be on us, and on our children. Then released he Barabbas unto them: and when he had scourged Jesus, he delivered him to be crucified." (Matthew 27:25, 26).

Why would some of the most educated and civilized people on earth call for the crucifixion of God? "But the chief priests and elders persuaded the multitude that they should ask Barabbas, and destroy Jesus." (Matthew 27:24). The top religious leaders of the day called for the release of Barabbas and the death of God!

Times have not changed. Our greatest enemies today are not politicians, but

From Calvary Baptist Church

preachers. "For we wrestle not against flesh and blood, but against principalities, against powers, against rulers of the darkness of this world, against spiritual wickedness in high places." (Eph. 6:12).

Jesus Christ and honor Marxist robbers, murderers, and insurrectionists, yet "the system" honors them! Times haven't changes have they?

The concert is over. The artist takes a bow. Or, perhaps the curtain rings down on a smash hit. And hands slap, smack, pat, or tap.

Hands do other things besides applaud. Some write on blackboards, others perform miracles of surgery—some type, some sew, some plant. Hands drive trucks, make music or diaper a baby.

In God's House are praying hands. These hands translate compassion into action. They find homes for the homeless and food for the hungry. They teach, as well as preach, and bring hope to hearts long lonely. They, literally, become the hands of God.

Today, as never before, we need the assurance and comfort of God's love. Help your church or synagogue reach out. Offer your heart and your helping hands.

# Resource Review

By Bruce Patrick  
Conservation Officer

Plants and animals learn to coexist in a habitat over a period of thousands of years. By interacting, competing and helping each other, an ecological balance is reached where all living things and the non-living parts of the environment balance. All things being equal, this state of balance can continue for long periods.

But when man enters the picture, things are not equal. We have a tendency to change the environment for reasons rational and not. Often these man-made changes lead to destruction of habitat and the extinction of some species of living things. Other times we introduce exotic species of plants or animals which create havoc in a balanced ecosystem.

A classic example of this is the Welland Canal which was built to connect Lakes Erie and Ontario, avoiding Niagara Falls. The falls were an insurmountable obstacle to waterborne commerce and the canal made good sense to a continent crying for the movement of goods on the Great Lakes. However, the falls were also a barrier to the passage of living organisms from the Atlantic Ocean into the upper lakes. One of the results of the detour around the falls was the movement of the sea lamprey into the Great Lakes.

With no long standing balance of nature to control it, the sea lamprey population soon exploded and

nearly destroyed the valuable lake trout in the entire Great Lake system. Despite years of effort, we have still not adequately control this pest.

But the lamprey is not the worst of the new residents brought into the Great Lakes via the Welland Canal. Two more recent imports, both brought in by ships, promise to be even more devastating to the Great Lakes.

One, the white perch, is a small fish with no apparent sport or commercial value which will probably out compete the popular yellow perch and walleyes for food. The result may be as dramatic as that caused by the sea lamprey.

The other new arrival is the striped freshwater clam, a mussel which is no larger than your thumb when full grown. In its larval stage, this clam voraciously eats the plankton and algae which supports the rest of the food chain. (Ohio reports a 13% decline in the walleye catch from Lake Erie due to this competition). As adults, the clams tend to colonize water intake pipes, attaching themselves like barnacles and decreasing water flow. (Monroe lost 1/4 of its water intake capacity last summer).

It is estimated by the Great Lakes Commission that measures to control the mussel will "cost much more than the Exxon oil spill". The striped

freshwater clam has only been in the Great Lakes for 3 years and has not really begun to spread.

It would be nice to think that man has learned the dangers of tampering with our environment, or at least will before it is too late.

## Doodles from the Tall Timber

By Wendell L. Hoover  
Hartwick Pines Interpreter

This past weekend, I had two trees removed from my yard that will be missed not only by us, but by this year's generation of chickadees and nuthatches. At one time there were four white birch in the clump next to the porch, but several years ago they were attacked

by the bronze birch borer, and we lost two. Usually the first sign of a problem with this forest pest is a browning of the foliage in the upper branches, the next year branches, still lower, die and the tree dies. A tell tale sign of the birch borer infestation is, swollen and discolored branches.

The grubs winter over in holes within the sapwood. Throughout the spring and summer, adult greenish bronze beetles emerge from those holes. The quarter to half inch long adults lay eggs under flaps of loose bark or in cracks in the bark. When the eggs hatch, the tiny larvae bore their way to the inner bark. As they mature, they make galleries between the wood and bark which runs across the grain of the wood, which needless to say, girdles the tree. Some of the galleries may be four feet or more in length, which very effectively kills the tree.

In this area of the country, it takes two years to complete the life cycle, so once a tree is infected, it is only a matter of time before it is dead.

## Firewood

Americans used enough firewood last year to build a 100-foot high wall of wood that would stretch from New York City to San Francisco.

## Recipes

### Raspberry Lemon Pie

- 1 graham cracker ready-crust pie crust
- 1 cup sugar
- 2 tbsp. cornstarch
- 1/4 cup water
- 2 cups flour
- 1/2 cup sugar
- 3 egg yolks, slightly beaten
- 1/4 tsp. butter
- 1/2 cup lemon juice and rind from a whole lemon
- 1/2 pint red raspberries

Brush crust with one egg yolk and place crust on a cookie sheet. Bake for 5 minutes at 400°F. Remove from oven and allow to cool.

Mix sugar, cornstarch, salt and flour and slowly add the water, stirring constantly. Cook until boiling, then reduce heat and cook for 2 more minutes. Remove from heat and stir a small amount of the custard into the remaining egg yolks. Blend the egg yolk mixture with custard and return to low heat for about a minute. Remove from heat and stir in butter, lemon juice and rind. Pour into shell and cool.

Top pie with raspberries immediately before serving. Use mint leaves for additional color.

## A Look At Our Past

### 23 YEARS AGO

November 24, 1966

Grayling Township Supervisor Bernard Fowler reported that the lighting program for the I-75 Business Loop north of Grayling was approved by Consumers Power Company and by the Special Assessment District of the township.

Crawford County Librarian Mrs. Doris Souders unearthed the information that Jim Harrison, author of a volume of poems entitled "Plain Song", was born in Grayling on December 11, 1937. Souders said Harrison had been living in Kingsley, but had moved east and was teaching in New Jersey. His parents are Winfield and Norma Harrison. Souders believed that Harrison's father may have been a county agent here under the Couzens Fund.

Five Grayling grid-ders were named to the All Conference squad. Grayling's 6 foot, 170 pound back, Dave Nethers was named to the first team for the second year. Pat Thompson and Tom

Hatfield were named to the second team, and Dave Bailey, Mike Corlew and Steve Englund were given honorable mention.

News from Viet Nam included a report from the 179th Aviation Company that was involved in a rescue mission of 623 soldiers. Two "Chinook" Helicopters manned by 10 men picked up 30 soldiers each trip, moving all the men and equipment across the swollen Tuy Hoa River while under Viet Cong fire. The helicopter crew included Spe 4 Robert B. Knight, 22, of K.P. Lake.

Other armed forces news included word that Gary Springs had been involved in a motorcycle accident in Guam where he was stationed. He was hospitalized for several weeks.

Parts of four counties including Crawford were blacked out on Friday night, November 18, when a small plane carrying pilot Raymond Collins and passengers Joseph Tison of Dearborn Heights and George Bogart of Westland

crashed on a main power transmission line of REC by the Lewiston airport just after 6 p.m. The pilot was taken to Mercy Hospital. Tison was in critical condition with head injuries and was transferred from Mercy to St. Mary Hospital in Saginaw. Bogart escaped with only minor scratches and bruises. Power was restored about three hours later.

The first hunter to bring in a buck and the first deer hung on the Deer Pole was Robert Hale of Grayling. The second hunter was Berry Boyd, also of Grayling.

### 48 YEARS AGO

November 25, 1941

Nearly 400 persons attended Friday evening's "Turkey Trot" for Grayling High School students and friends. Keying the war-simplified decorative scheme was a large red and white "steamlined" turkey pen in the center of the gym with two large white turkey gobblers getting the attention of the dancers and spectators. Flags and patriotic emblems decorated the walls and beneath one bunting-draped arrangement was a platform from which Kep Fraser's Traverse City orchestra provided the dance music. The upstairs hall was reserved for a refreshment table which was constantly circled by dancers. One of the evening's highlights—and there were many because of the work Chairman Barbara

Borchers and her committee put on the plans—was the many "robber" dances which everyone enjoyed. The party was an interesting one and the Junior class can be congratulated on the success of this pleasant Thanksgiving party which attracted such a tremendous crowd.

The vigilance of our conservation officers enabled them to apprehend and arrest three men for hunting deer in the Hanson Game preserve. The arrests were made Sunday morning by Clarence Roberts, Neil Matthews and John Peterson. The men had killed a buck and while two of them were dragging it out of the preserve, the conservation officers arrived and placed the men under arrest. Each paid fines and costs totalling \$100.

On Nov. 28th the Army Air Forces training command announced the graduation of Pfc. Arthur H. Feldhauser from the B-24 Liberator bomber mechanics school at Keesler Field, Biloxi, Miss.

Politics is at the root of the subsidy plan. Under the subsidy plan the men now fighting for us overseas will have to help pay our grocery bills when they return. Money from the federal treasury would be used to subsidize the producers of farm crops while city consumers, employed at the highest wage rates in the history of the

United States, would be able to buy at lower prices. Instead of heading off inflation, as the supporters of the measure claim, it would be inflationary in itself. Subsidies add to the war debt. Subsidies add to the purchasing power, the surplus buying power, of the consumers. Added to the war costs which must be met by war bonds would be the food costs. They too would have to be paid out of the bond receipts or government revenues. If consumers are not now able to pay food costs when their income is the highest in history, what will they do when the war is won and wages drop? We all know the answer; subsidies would become permanent and another drove of taxpayers would be saddled onto the people.

Albert S. Goss, master of the National Grange declared "There are few sources of political control more potent than that of cash subsidies. The supreme court has held that the government has the right to regulate what it subsidizes.

Born to Mr. and Mrs. Donald Bobenmoyer (Elaine Broadbent), of Bay City on Nov. 2nd a daughter, Karen Ann. The little girl weighed 7 lbs. 4 oz.

Miss Mary Jane Joseph was home from Michigan State College visiting her parents, Mr. and Mrs. A. J. Joseph over the weekend.

Louis John Ireland of Roscommon, and Donald Edward

Smock, James Francis Wakeley and Donald Oliver Kangas of Grayling left on the midnight train Monday for Fort Sheridan, Ill.

News has been received that 2nd Lt. Myrtle M. Melroy, daughter of Clare Melroy of Frederic, of the 17th General hospital has arrived in Italy. She reports a very pleasant trip across the Mediterranean.

Everett Corwin of Flint returned to his home Sunday taking a nice 6 point buck. It was his first kill in 15 years he said, but he went into the woods this year more determined than ever to get his prize. He visited at the home of his parents, Mr. and Mrs. Charles Corwin.

Miss Thelma Papendick, who is employed in Lansing in the N. Y. Central offices, was transferred to Grayling for a couple of weeks to take the place of Chris Jensen, who is taking his vacation and spending it deer hunting.

A Grayling man, Robert A. Funck of Campbell Army Air Field Ky., has been promoted to Technician 4th Grade in the Signal Corps it was announced. He is assigned to duty as a teletype specialist with an Air Force Service Group. He is the son of Mr. and Mrs. Augustus Funck. T-4 Funck was chief electrician for the City of Grayling prior to his enlistment in June, 1942.

At the home of Mr. and Mrs. John Billings occurred the marriage of their daughter, Miss Grace to Mr. Hans Niederer, Rev. C. E. Doty performing the ceremony. The bride was attended by her sister, Miss Nettie and Mr. Fred Niederer acted as best man for his brother.

Norman Spencer of Saginaw, who formerly pitched for the Grayling baseball team, is visiting here.

Miss Fern Fairbotham, youngest daughter of William Fairbotham of this city, was united in marriage October 24th in Dowagiac, to Mr. Mark M. Julian.

Mr. and Mrs. S. L. Mead, former well known and highly esteemed residents of Grayling, but who now reside in Marlette, will celebrate their golden wedding anniversary next Sunday.

James Oliver Curwood of Owosso, author of a number of popular books, has been a guest of friends while hunting near West Branch.

Mrs. Oliver Lovely

of Bay City came to Grayling Monday to visit her parents, Mr. and Mrs. Joseph Mayo, but found them quarantined with smallpox.

The local duPont plant is working nine hours a day instead of ten hours. They began Monday shutting down at 4:30 in the afternoon. The Kerry and Hanson Flooring Co. operate five days a week, closing down all day Saturday.

Miss Margrethe Bauman has been spending a few days with her sister, Miss Grace at Knox College, Cooperstown, N.Y. Also Miss Lucille Hanson who is studying at the same school. The three are guests of Emerson Bates of West Point Military Academy and will attend the big army and navy football game.
